Training data
960 loans
Reference model
trained on the pooled data
Declined applicants
(reference score ≥ 0.30)
Stylised clients
(3 institution archetypes
or label-skew splits)
Federated models
FedAvg, FedProx,
SCAFFOLD, median,
isolated
Agreement of
top-5 reasons:
overlap,
same top
reason,
cosine
50 bootstrap retrainings
of the pooled model
(routine retraining)
Noise floor:
5th percentile of the
bootstrap agreement
